Visit of the President—Attempted Saicide.
Correspondence of The Tribune.
BATTIMORE, Taesday, Oct. 22.

The Fair of the Maryland Institute for the Promotion of the Mechanic Arts, is vastly larger than on any previous occasion. The great fault, however, is in the display of so many trafling articles, many of which have been exhibited at each Fair since the organization of the Institute. This decreases much of the novelty and attraction to our citizens. Still, however, Washington Hall is illed during the day and crowded to repletion at night, by men, women and children. The receipts at the door yesterday amounted to over \$600—a larger sum than has ever yet been taken into one day. There are over a thousand contributors, who are each entitled to a ticket, thus making the number who visited the Hall yesterday and last evening at least 3,500. The proceeds go to building the new Hall for the Institute over the Center Market, which will be one of the most capacious chiket, which will be one of the most capacious edi-fices for public meetings, concerts, &c. south of Philadelphia.

Among the many contributors to the Fair I no-tice the following from your immediate section of

FORREST vs. FORREST. Argument on a Motion to Restrain Edwin

Argument on a Motion to Restrain Edwin
Forvest from leaving this State.

SUFREME COURT.—General Term.—Before Judges Edmonds, Edward Mirchell.

Mr. O'Gonor continued his argument, yesterday, in support of the rights of Mrs. F. to a writ of ne exeat restraining Mr. F. from leaving the State. He entered into a history of the case as it appears from the adidavits which have already been published—the declared that Mr. F. had no foundation, in fact, for the charges against his wife, the proof of which was his asying to his agent, Mr. Lawson, that his wife was guity of no crime—he wished to God she was. His motive in bringing the soit in Philadelphia is

induced, promany, communication, cless, or a spirit of domination.

The suit brought by Mrs. F. against him in this Court for a limits divorce and maintenance, be contended was well founded; and the fears expressed by her that he would dispose of his property and leave her without the means of maintenance; also, that she had reason to apprehend in the court of the co

que, but will probably become so, and that at Coard is bound, in a case like this, to construe a law liborally, so is to protect a write from being abandomed, and impoverished and gisgraced, undeserved, by for hisband. The Court has also power at common haw, as it stood by the Chameery rules of England, before the Royolution, and American practice and decisions since. Although Mr. F. now allows his wife \$1,500 a year, it is but a gunrter part of his income, not sufficient for her to live in the style she had been accustomed, and not sectored to her in any way, but depending entirely upon his will. Mr. O'C. made other remarks, and strongly urged upon the Coart the propriety of its continuing the remetyly of the ne exect in this case.

Mr. Van Buren spoke for some time in reply to Mr. O'C. In regard to what has been stated by the opposite connect, there is every safety as to what is alloged Mrs. F. apprehends in regard to maintenance; she has obtained an injunction restraining Mr. F. from desposing of his property—from pursuing the suit he has cammenced in Philadelphia, and from entering the house where she resides, and she can enter a notice of lispenders if she whiles to hold a chaim on the real estate, so that she has ample security as to that; the injunctions, however, cannot stand, but the argument in regard to them, from want of time, is now waived so as to get the ne event removed, and Mr. F. be free to leave the State, his own business now suffering from the detention.

As to the completed to Mrs. F. be grants Mr. F., none of it is properly founded; he has not abandomed and refused to provide for her, but allows her \$1,000 a year; he has never ill treated her, nor has she any cause for apprehension of ill treatment on his part; when he discovered impropriety on her part, he proposed that she should flive separate, which she stone agreed to an a certain sum per year, which has been regularly paid; if she had not been aware that his charge were covered to a certain sum per year, the has never the health of

BROOKLYN LAW COURTS.

CITY COURT.—Refore Judge Greenwood, and Ald. Taylor and Demise.—The Drury Cose.—The points decided by the Court on the motion to quash the indictment were:

Ist That in an indictment under the Sith section of the act relating to forgery (2 R. S. 674) it is numecossary to state the name of the person intended to be defrauded, although the rule is different at common law.

the name of the person intented to be defrauded, although the rule is different at common law.

2d. That an indictment for forgery must set forth the among the instrument, or show on the face of it a sufficient reason for not doing so.

3d. That the latter objection is fatal on a motion of arrest of judgment, or writ of error, but that in cases of indictments for the higher offenses, especially such as are of a character to effect the public, the court will exercise the discretion which is vested in them, by refusing to quash (the effect of which would be to discharge the recognizance) and leave the defendant to his motion in arrest of indigment or writ of error. This will enable the District Attorney to have a new bill found if he thinks the public interest call for it.

Becorft.—The trial of Jonathan Beecroft was called on yesterday morning, but in consequence of the panel of purors not being sufficiently large, was postponed until to-day. The rearr then adjointed.

FIRE.—Yesterday morning about 8 o'clock, the stables of Mr. Hughes, in the rear of Myrtle-ave, between Carlton ave. and Cumberland st. were discovered to be in flames, and though assistance discovered to be in mannes, and though assistance was quickly on the spot, the fire in a few minutes communicated with the stables of A. L. Carman, on Carlton-ave, and in a short time both buildings, together with the out-houses and frames adjoining were a mass of black ruins. This was no doubt the work of incendaries, as five times before, within the lest few months similar attempts. the work of incendaries, as live times denote, within the last few months, similar attempts have been made to set fire to the stables of Mr. Hughes; and at one time a fellow was discovered escaping, in broad day light, after laying the plan for the consummation of his diabolical deed. The property destroyed was not insured. Fortunately the horses had been taken away before the fire broke fout.

U. S. DISTRICT COURT—Before Judge Judson— Decisions—Howland & Aspinwall vs. The Bark War-Chipman.—On an alleged charter party, in 1849, to corve 1,000 tans of coal to Acapuico, coast of Mexico. The acrio is for damages for non-performance, it was a mere questio of fact, and the agents of the respective parties appeared to differ in what they considered the agreement—one that the price was to be \$5.50 per tun and carrying a hunch freight free; while the other that it was to be \$10, and nothin originally said about the launch. It was intended to reduce the contract to writing, but the parties had not both assents to the terms. There appears not to have been any contra-which would hold either party. Darid P. Bramhall vs. Thos. Shaler, Jr.—To recover \$502 on the balance of freight money on a charter party of the bark Eliza Brass, hired by Mr. S. for a voyage to New-Orleans and buck, for \$2,706, one half to be paid by the consignees at New-Orleans, and the other half by Mr. S. on the return of the vessel. She was consigned to Messrs. S. Toly & Nephew, who refused to act under the consignment, and charter of Mr. S. not having funds of his in their hands, and the Captain consigned the vessel to them, and obtained a return freight, which was credited to Mr. S. on the charter party, and the above balance left, which he declines paring on the ground that the Captain insisted upon terms with the House there which was the cause of the charter party being broken. The Court does not consider such to have been shown, but that the charter party was broken from no funds being supplied, and the Captain compelled to act for thin-self. "When a slipper," the Court said, "consigns the care to a particular House, and the House refuses to act, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right, the charter party is violated—legally broken, and a right of slope. In Freights there is an upward movement, and shipmasters ask advanced prices; is 6d for Flour, 5d for Grain, 3-16d for Cotton. Engagements, of several thousand bbls. of Flour was made at 1s 3d, showing an improvement of 3d. To Liverpool we note also engagements, 20 hhds. Tobacco 158; 75 casks Tallow, 128 6d. To London, 259 tes. Rice, 25s, and Cheese, 30s. To Rotterdam, Rice at 25s, and to Hamburg, Cotton I a cent, and Weight and Measurment Goods, 22s 6d. To California, the rates are 60 to 80 cents, by ordinary vessels, and \$1 to \$1 25 ₱ clippers. The ship Cambridge, late Liverpool packet, 793 tuns, built in this City, has been sold to a Baltimore house at \$27,000.

In exchanges the market is quiet.

At the Sub-Treasury, \$64,550 was received to-

day, and \$84,140 disbursed, leaving \$4,537,781. The advices from Liverpool are unfavorable for Cotton, and the market has declined ‡ to {c ₽ lb, but for Breadstuffs the news is favorable, and the market has stiffened here for Corn. The appearances now are that England will want a con siderable supply of foreign breadstuffs, which she will draw to considerable extent from this country. In American Stocks there was some movement. Baring's Circular says: There has been a fair business in United States Coupon Bonds of \$1,000 each, 1094; a reduction is made for larger bonds. The rise in several stocks in the United States has prevented business, particularly in Alabama and Illinois, for holders will not fix a price. United States 6s, 1867, 106 2 107. For Land Warrants there is a moderate de mand, at \$130 each. In relation to the quantity of these Warrants, we have the annexed information from the Department at Washington. It appears that on the 1st Oct. 1849, a careful examination was made, and it was found that there had been registered on the books of the Land Office on that day, and in the Act of Feb. 11, 1847, of both Classes, 69,221. The subsequent monthly issues have been, for Oct. 542; Nov. 916; Dec. 530; Jun. 669; Feb. 581; March, 614; April, 608; May, 485; June, 419; July, 350; Aug. 350; Sept. 309. Eighteen days in Oct. (inst.) 149; 5,700-Total, 75,943. The issues in 1849 were as ollows: (There were no issues from Jan. 1 to 29.) Jan. 29 to Feb. 28, 4,837; March, 3,657; April, 3,573; May, 3,743; June, 3,107; July, 1,772; Aug. 004; Sept. 824; Oct. Nov. and Dec. 2,188-Total, The highest number issued of 160 acres, was 71,485; do. do. 40 acres, was 5,922-Total,

This exceeds the number actually issued, 1,464, This has been occasioned by the cancellation of that number at the Pension Office previous to transmission to the General Land Office for registration. The vacant numbers on the Register have never been supplied. The numbers located can never be determined at any given period for the reason that they are required to be detained at the local Land Offices thirty days after location, previous to their return to the General Land Of fice. It often happens, therefore, that locations made in the early part of a month are three months in reaching the Capitol. Few returns, if any, have yet come to hand, later than July last, and not many since June. The actual returns embrace about 58,000, to which may be safely ad. ded for those on the way about 4,000, making 62, 000, leaving affoat about 14,000. Of these there are at least \$,000 which are invalid by reason of irregular assignments, or are held back to be located by the owners hereafter, or as family mementoes, &c., leaving about 8,000 on the market in various parts of the United States, most of which are held considerably above the present market price. The locations appear to have averaged 2,500 per month, and of late have reached

The Farmers Bank of Kentucky offer for sale in this market \$500,000 of its Capital Stock. This Bank was chartered at the last Session of the Kentucky Legislature, with a capital of \$2,040,000, of which sum \$700,000 has been subscribed and paid in Kentucky. The Bank is in the hands of some of the wealthiest and most able business men in that State. Books of subscription for half a million of dollars of this stock are opened in this City, under the direction of two of our leadding Wall st Houses, Messrs. Winslow, Lanier & Co. and Messrs. Ward & Co. The remaining capital will be taken in Kentucky and elsewhere This Bank has twelve branches, and the mother Bank is located at Frankfort, the seat of Government of Kentucky, and several of the Branches are in successful operation. The Charter has thirty years to run, while the Charters of nearly all the Banks in the Western States expire within twelve years. The Banks of Kentucky have always been very successful, paying from 8 to 10 P cent. dividends, and their Stocks are considerably above par. Kentucky offers a wide field for sate and profitable banking-she has a large amount of valuable exports, in the handling of which banking facilities are much needed, and can be advantageously used. While our City Bank Stocks bear such high premiums Capitalists should examine the merits of this Stock, which is offered at par.
